Equipment Lease (Heavy & Light) ; We provide construction, marine and Oil /Gas equipments for both short term and long term leasing arrangement.

Project management

PICKROSE has the expertise to completely manage projects from conception to implementation. Our team is experienced in pre-planning, design, site preparation, construction, implementation and testing of sites to meet project's specifications.

The project management team usually establishes and maintain communications and feedbacks with the client's team. The client's project team receives and disseminating all information relative to design, construction and implementation of the total project. Reporting of project updates is professionally provided through projects tools like project schedules, bar graphs, status reports, timelines, softwares.

PROJECT PLANNING AND DESIGN

Pre - planning can avoid costly delays by ensuring that clients achieves the best component interface design which will provide the highest system performance at a competitive cost to the client. Accurate material list are supplied which will eliminate the delays in shipments, thereby keeping to project timeline and milestones.

QUALITY ASSURANCE STATEMENT

It is the policy ~~PICKROSE~~ **PICKROSE** projects undertaken conforms to all requirements and standards as agreed in the contracts.

A well structured Quality Assurance system is documented in the company quality manual and procedures. The project quality plan (PQP) is an essential part of the manual that guides the quality assurance project development for specific project.

PICKROSE's quality policy is to achieve sustained, profitable growth by providing services which consistently satisfy the needs and expectations of its clients.

Project management

Benjamin Peter

Senior Architect

HND (Arch.)

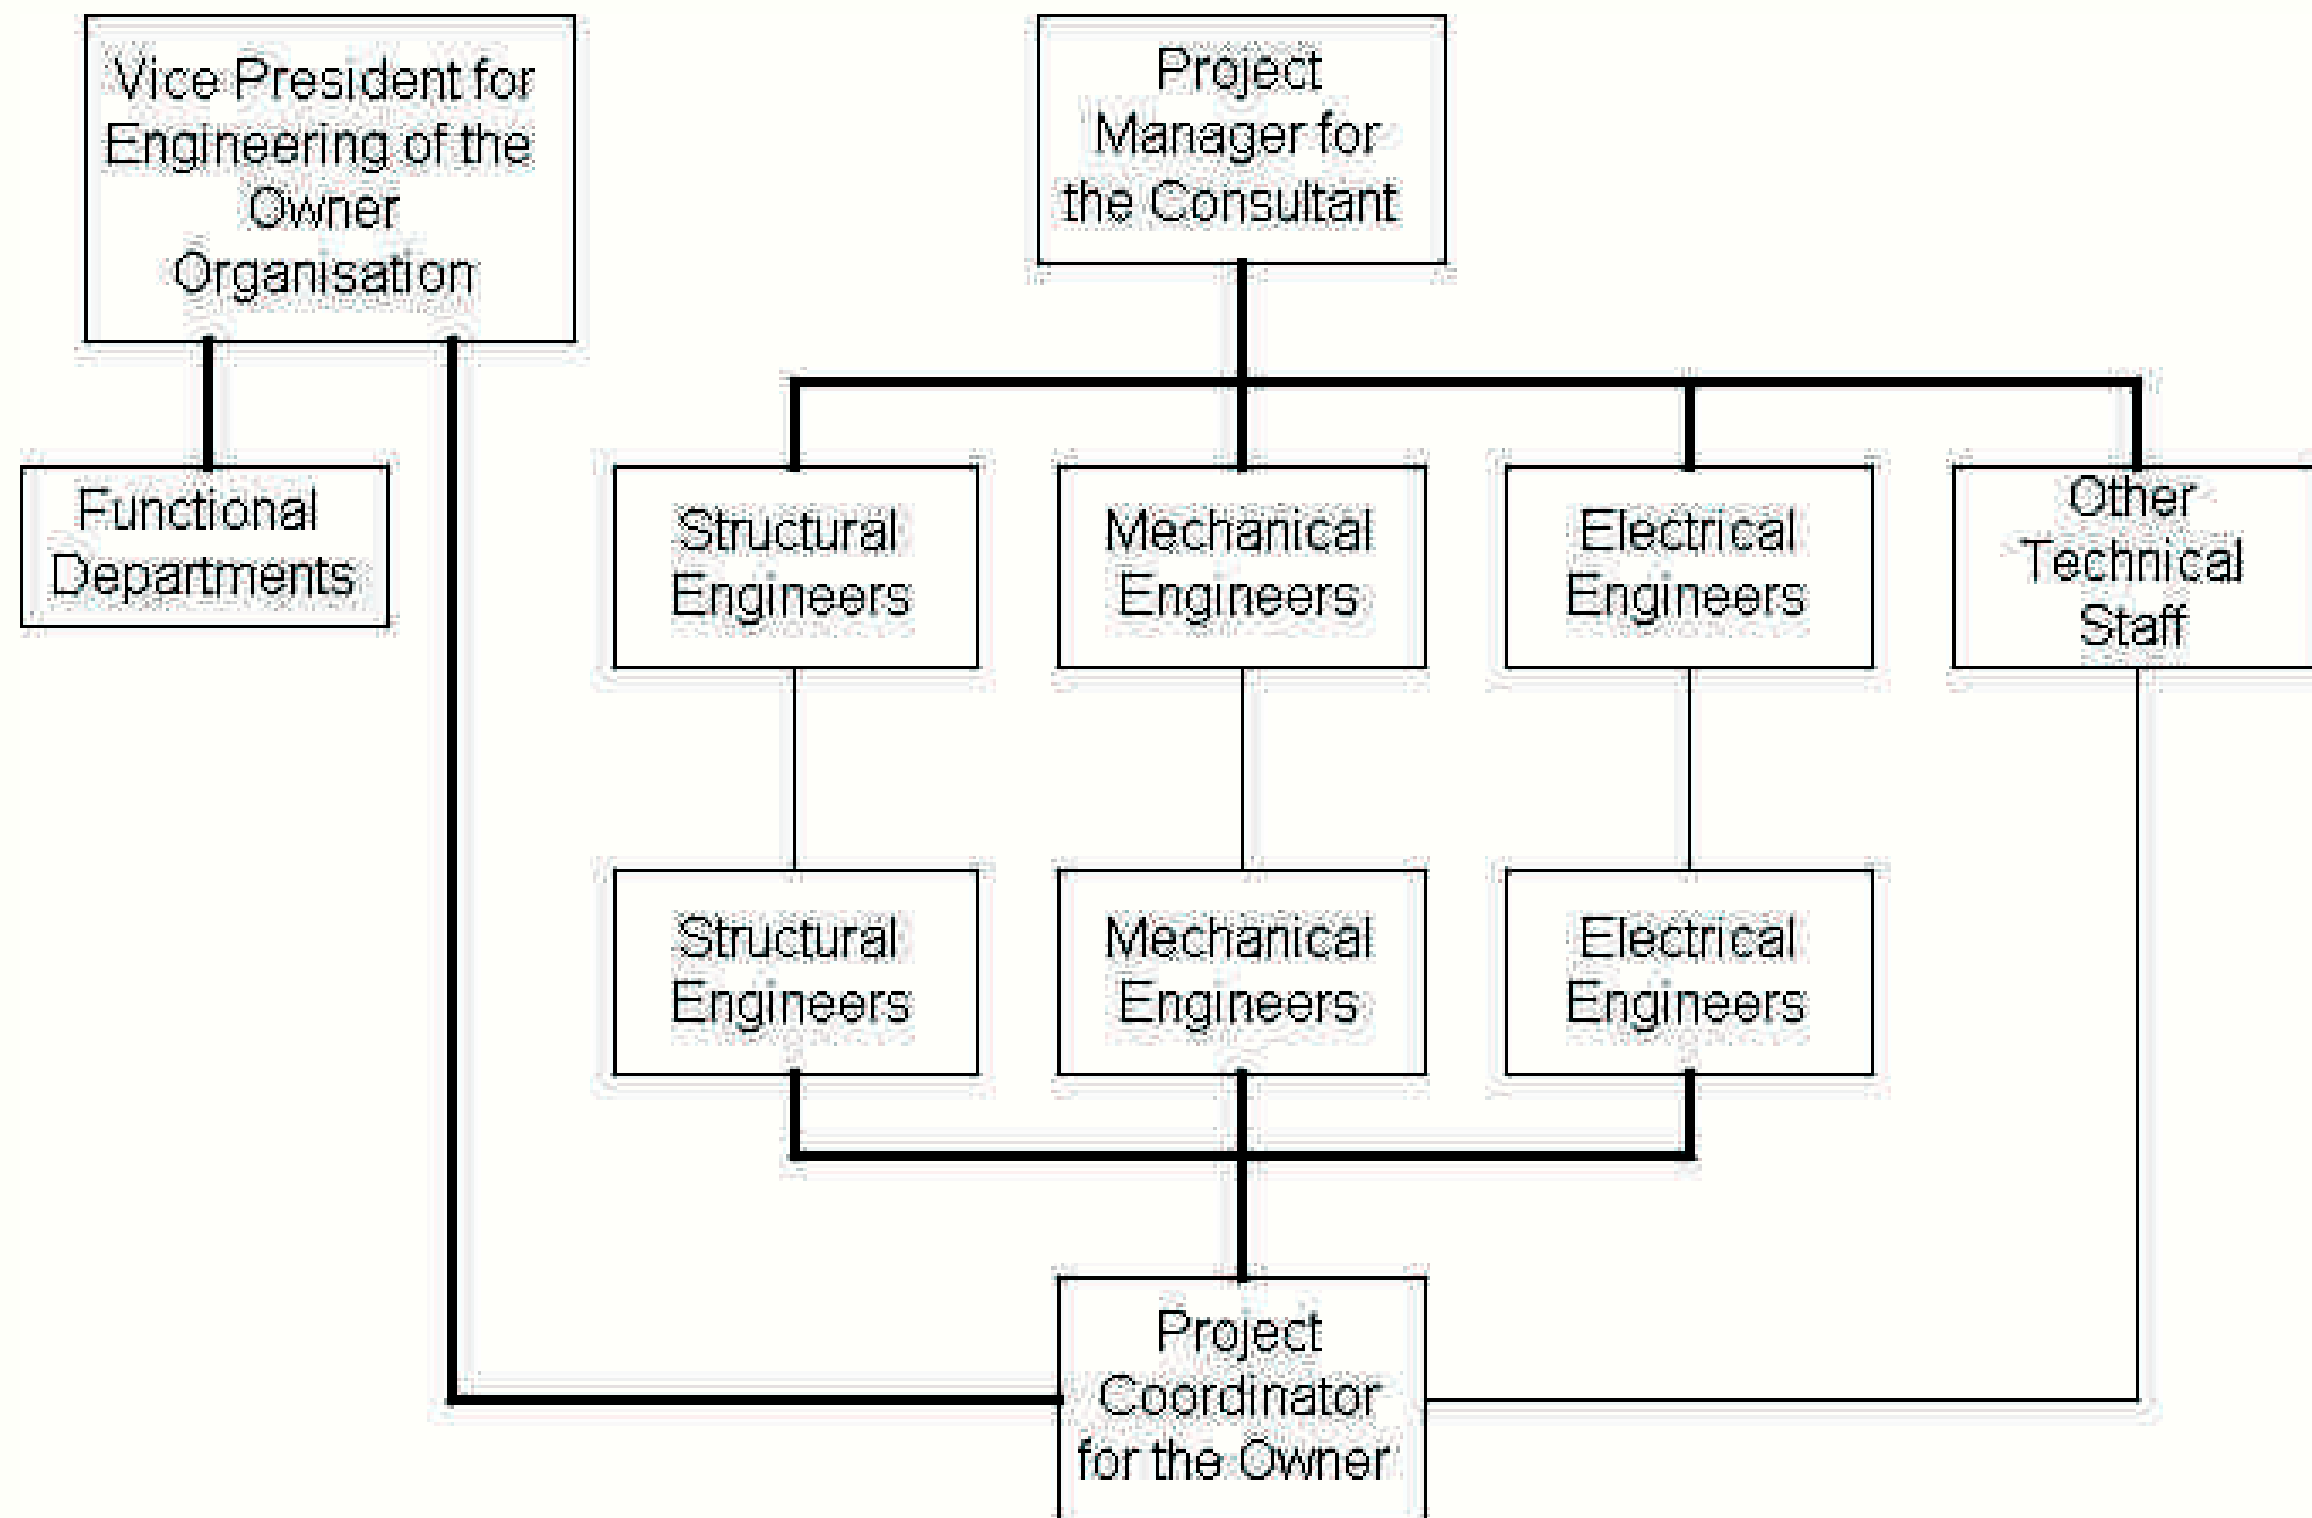

Engr. Lanre Tanimowo

Project Manager (Elect.)

B.Tech, M.Sc (Elect.) R.COREN

Project Management for Construction

Past Completed Contracts.

Construction of Intercontinental Bank Plc, Bola Ige

International Market.Gbagi –Ibadan, Oyo State.

Sand filling of 5 Acres of land for the proposed Tank Farm

Dredging Project 100,000 cubic meter stock pile of sand
at Lekki, Lagos.

Past Completed Contracts.

SOME PROJECTS MANAGED:

Construction of Civil infrastructures, tower erection, assembly and reticulation of equipment shelter, electrical earthing installation and installation of GSM equipments in BTS projects throughout Nigeria and OMS

Construction of Civil infrastructure, assembly and reticulation of equipment shelter, electrical earthing installation and tower erection, Generator installation, sensor connection in Stormberg/Celtel GSM BTS projects throughout Nigeria, and installation of microwave backbone.

Construction of Civil infrastructures, assembly and reticulation of equipment shelter, electrical earthing installation and tower erection in Servtek/MTN GSM BTS Projects throughout Nigeria.

Construction of civil infrastructure, electrical earthing installation, installation of rectifier, mounting of GSM Microwave Antenna, microwave bracket, connection of alarms at Interkel/Etisalat.

Electrical Earthing Installation, installation of low voltage surge

Design and Building of GSM Base Transceiver Stations (BTSs) through out Nigeria.

Procurement of equipment shelter materials, assembly of the shelter and its reticulation,

Supervision of Tower erection,

Installation of Genarators (16KVA, 17.5KVA and 33KVA) and Power backup equipments on BTS sites,

Positioning and installation of diesel tank

Past Completed Contracts.

Road Projects

Re - Habilitation of MAKIA Runway 06/24, Kano.

Dualization of Ife – Ilesha Road (Repair).

Re- Construction of Ogidi- Abetete – Oraukwu – Nnokwa – Alor Road with Spur.

Re-Construction of Zik Avenue, Awka.

Re – Construction of Otuocho – Umuleri – Nteji Awkuzu – Abagana – Abetete – Ideani Road.

Re - Construction of Umurze Anam – Nmia – Nzam Road – PHASE (1).
