OUR ORIGIN

Jo Onabu Engineering Nigeria Ltd is a private company that was established in 2012 as a construction company, located in Lagos Nigeria. Our aim is to become one of the big names in construction companies in Nigeria.

Our style

The company's reputation is based on its capabilities to offer cost effective solutions which includes, planning, engineering, design construction and maintaining a variety of building projects to the satisfaction of its clients. It is also based on single minded commitment to deliver on every promise, to find the best way to achieve the greatest advantage for every client.

Our Approach

We are dedicated to providing effective engineering solutions through optimization of process involved in construction; also, we are fast and agile, keen and smart to take chances. We identify and evolve effective and innovative solutions for products & services, which meets international standard and is certified to implement & maintain quality system recognized by safety aesthetic and environmental standard of ISO 9001.

We have strong track record in delivering projects for both Public and Private sectors.

JO Onabu as a strategic alliance with EnergoBuilding a leading Architect and Construction firm and Divine Signaturez Partnership a leading Quantity Surveying firm which enables us to present our clients with quality and standard end products.

OUR PEOPLE
