## COMPANY Profile

## COMPANY Profile

Magnitude Building & Engineering Concept Limited, from its incorporation in 2010 and with the experience of its Management team has grown and developed, to become an established and recognized company in all sectors of the building industry. Projects completed over the past years, ranging in value from N1billion.

Magnitude Building & Engineering Concept Limited, has a breadth of experience encompassing all sectors of the industry from educational and leisure facilities, healthcare, industrial and commercial buildings, building refurbishment, heritage works, food production and distribution facilities, to large scale residential developments and small engineering projects such as drainage schemes, mains water networks, and waste-water treatment plants. Contracts have been undertaken successfully all over Nigeria especially the southwest and SouthSouth areas.

Over the years the skills and management base of the company has grown and developed and our team of staff and managers has an enthusiasm, competence, and commitment unequalled in the industry. Competitive tendering, professional management, quality construction, an excellent safety record, a proven ability to meet exacting programmes, and our co-operative and proactive approach, have ensured the satisfaction of Design Teams and clients in both the public and private sectors.

Magnitude Building & Engineering Concept Limited, is the ideal choice for your building project.
