CORPORATE PROFILE

RIVERSIDE & SONS ENTERPRISES is registered in November 2000 with Registration Number LAZ 101364 under the companies and allied matters Decree 1 of 1990.

Riverside & Sons Enterprises established to meet the demand for improved quality services and competitive prices in the supply, installation and maintenance of all types of Airconditioners Domestic, Industrial and Household Appliances.

The company has a fully fitted technical workshop with modern services and repair equipments that will be used to attend to complaints/faults that may arise from Airconditioners supplied by us as part of ways for our clients to enjoy their guarantee/warranty.

The workshop is manned by a team of trained and qualified technicians with vast experience in Airconditioning and Heating Technology.

SERVICE CONCEPT

The company is committed to valued added services of quality by providing creative sales and support services that represent a significant improvement on the services standard currently in existence in the sales and services of Airconditioning Business in Nigerian market.

OUR CORE SERVICES

- *SUPPLY*
- *INSTALLATION*
- *MAINTENANCE*
- *PARTS*

SUPPLY: We supply all brands of Air-conditioner. The wide choice offered allows our clients several quality options which is of utmost importance, since building design and equipment output requirement are essential consideration in choosing which brand, capacity and type of air conditioner that will best suit for clients requirement. In line with our strategic approach of providing value added integrated services, we offer expert advice in this regard based on detailed technical and cost benefits. Supplies are made within 24 hours of confirmation of order/services. We cover all parts of Nigeria.

INSTALLATION: We install Air conditioners for all our clients in such a way to ensure optimal performance of the equipments. Our technical field team includes a specialized installation unit who utilize their superior skills and technical knowledge to install equipments in such a way as to reduce the possibility of technical malfunctions to the barest minimum and ensure long lasting maximum performance of the equipments.

MAINTENANCE: We provide general maintenance and repair services to our clients aimed at minimizing technical depreciation which as a result significantly increase the operational life span of the equipments. We have a team of fortified young but dependably dynamic technicians who share in the vision of the company to provide the best to our clients.

PARTS: We are authorized dealers to several leading Airconditioners manufacturers thereby ensuring stable spare parts.
