2. TEGRA: YOUR AUTOMATION PARTNER

The company has been formed by a group of professionals having vivid experience and wide exposure in Information Technology. People involved here are young qualified business graduates and qualified engineers from the renowned universities across the globe.

The resource personnel working in the company have been consistently providing reliable support services and consultancy to a wide variety of corporate houses either in the capacity of executive or as business partner or consultant. Bottom line of the company philosophy is building a long-term business partnership with its clients where interpersonal relationship, reliability, assured quality and target oriented modern technology are the major building blocks.

It is a company where professionals from both technical and functional field group together with an objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact in developing business solutions. We constantly strive to be a leading technology firm with profound business and functional knowledge. The key to the company's success is the maintenance of a close working relationship with the clients through ensuring the best possible solutions to their needs; to establish and maintain a thorough knowledge and understanding of client's objective and help them maximize the benefits.

We want to establish ourselves as the best choice in Computing and Information Technology Services, Consultancy and Development by offering the full spectrum of services.

3. OUR MISSION & VISION

Our Mission is to achieve the reputation of a quality, high standard & reliable solution & service Provider Company in the ICT industry.

Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

Our keys for development:

- Desire for Excellence
- Trust and confidence build-up
- Innovation
- Transparency
- Teamwork

We believe in

- Motivation
- Collective responsibility and leadership
- Professionalism and ethics
- Adding values to our client needs

4. OUR INVOLVEMENT

■ ICT CONSULTANCY

We consult for high-end technology implementation at clients' site or implementation of new technology according to the clients' requirement or upgrading, enhancing the existing facilities in the clients end with the new technology integrated with the existing one. TEGRA offers a full range of consulting services to help analyze your business requirements for effective implementation of solutions. Our consulting services cover:

- Strategy planning
- Assessment
- Procurement
- Re-engineering solutions
- Planning, audits, best practices etc.

■ SOFTWARE DEVELOPMENT

Beside the hardware and network solutions; with design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, TEGRA offers scalable end-to-end application development and management solutions from requirement analysis for deployment and rollout. We are developing software, related to garments- production management, commercial jobs, buying, accounting software for trading, manufacturing house and conglomerates. We hope to come to you with desired software at a reasonable cost. TEGRA's services span the following application lifecycle stages:

- **APPLICATION DEVELOPMENT** – Providing end-to-end development from requirement analysis for deployment and rollout.
- **APPLICATION MAINTENANCE** – Changing or enhancing software to meet changing or increasing business demands in the post-rollout phase of an application
- **APPLICATION SUPPORT** – Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver and Bronze support.
- **APPLICATION INTEGRATION/MIGRATION/TRANSFORMATION** – Replacing, migrating and integrating legacy or bespoke systems with COTS products.
- **APPLICATION MANAGEMENT** – The application management layer cuts across all software engineering activities listed above. TEGRA takes complete ownership of the outsourced suite of applications as per the agreed scope and manages the support. This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

■ NETWORK & INFRASTRUCTURE SERVICES

Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. TEGRA's services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements.

TEGRA's Solution Integration services offer to:

- Leverage IT investments
- Minimize risks
- Maximize compatibility
- Maximize interoperability

TEGRA provides total project management, right from architectural design, integration, system and interface development to migration backed by world-class methodologies, well-defined solution frameworks and extensive integration experience with tier-1 service providers.

■ HARDWARE SALES & SUPPORT SERVICES

We offer servers, computers, computer accessories and services by sourcing from local market and from international market as well. Our team of experts is ready to serve you when you are worried due to lack of confidence in "commitment of service". You are hereby requested to call us for any kind of requirement of computers, computer parts and services whatever and whenever you need.

6. STRENGTH & CAPABILITIES

The development team of TEGRA is equipped with proper human resources specialized in different system development tasks. The key areas are;

■ SYSTEM ANALYSIS & DESIGN

System analysis and design team combines both functional and technical analysts. We believe to develop a proper system of which functional analysis is equally important as technical analysis. Our system analysis and design team specializes in the software like Microsoft Visio, Rational Rose and Microsoft Visual Modeler.

■ SOURCE CODE REPOSITORY AND ADMINISTRATION

For source code version control and multiple programmer interaction management we use Visual Source Safe as our source code control software.

■ DATABASE MANAGEMENT

We have database expertise ranging from ISAM or flat database systems like Microsoft Access, Visual FoxPro to robust commercial database engines like Oracle and Microsoft SQL. For web-database connectivity and cross-platform data management we also have specialized experience and expertise in My SQL database server.

■ WEB DEVELOPMENT AND DESIGN

Our web developers and designers are skilled in development with Microsoft Front Page, Macromedia Fireworks and Dream Weaver for web site design.

■ PROGRAMMING

Our young and talented programmers have a wide range of experience in developing systems. Our programming skill involves:

- **PROGRAMMING LANGUAGES:**
VB, Visual C++, Java, VB for Application (VBA) and Microsoft .Net Platform.
- **WEB PROGRAMMING LANGUAGES:**
PHP, Perl/CGI, Active Server Pages (ASP)
- **SCRIPTING LANGUAGES:**
Java Script, VB Scripts
- **MULTIMEDIA DEVELOPMENT:**
