January 31<sup>st</sup>, 2019

The Director Procurement Development,  
Living Faith Church,  
Canaan-land.  
Ogun State.

Dear Sir,

## LETTER OF INTRODUCTION

Allow us to introduce our company – **Reispar Technologies**.

Metropolitan Lagos has much higher population density than any other city in Nigeria with an average density of *2400 persons/km<sup>2</sup>* and an annual population growth rate of over 5% with a certain number of her roads either deplorable or inaccessible.

Reispar Technologies is a digital utilities and services enterprise founded with the goal of **connecting rural communities and urban areas** by executing **cost-savings civil/structural, power and IT services** projects across Nigeria- in our general projects portfolio.

Our prices are **affordable** and offer *cost-savings* returns in the long run to our clients, one key factor that makes our business model suitable compare to other competitors. In addition, we have a **strong team** full of talents and technical partners.

Founded in December 2017, **Tolulade Ademisoje** a Project Mechanical Engineer with previous diverse projects executed in the Construction & Safety, Energy and Software industry as a young engineer, an Autodesk CAD Inventor Associate and a graduate of the Prestigious Covenant University, is the founder of Reispar Technologies.

**Olumadebo Ademisoje**, a Chemical Engineering graduate of Landmark University is a technical and business partner ensuring safety and standards are followed in our projects. We also have in our team experienced artisans and technicians who are ready to be deployed upon commencement of projects.

The Reispar vision is to contribute towards **infrastructural development** in Nigeria.
