RAISH Infosystem

Solution to your Thoughts

Corporate Profile

Introduction

RAISH Infosystem is an established Networking, Systems & Business integration Service Company with a first class reputation. We have a policy of providing local cover wherever possible to ensure our high level of on-site response and to maintain our cost effectiveness.

RAISH Infosystem recognise that technical expertise is our chosen business areas and quality of service is of paramount importance. The company deploys its expertise to address global ICT (Information and Communication Technology) issues facing the development and support of Business Systems and Networking.

We have organically grown our business and gained market share in other areas of IT solutions by delivering on projects with high calibre qualified staff. Our business is now poised to expand quickly over the next three to five years. We are actively hiring new key staff to further strengthen our team.

RAISH Infosystem also assist organisations in the logistics of planning and delivering major roll-out campaigns. RAISH Infosystem also believe in the partnership approach in both understanding the requirement and working together to find the optimum.
